# INTRODUCING **360-T**

360-T is a complete suite of innovations designed to protect you and to give you total advantage on the road with features that ensure you are always safe, connected and guaranteed to be satisfied in every way.

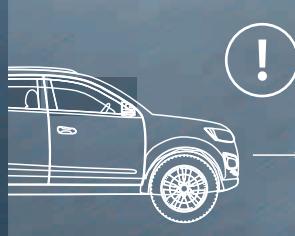

# SAFE-T

## PRE-COLLISION SYSTEM

The Pre-Collision Warning and Braking System automatically alerts you with a buzzer and applies the brakes if there is an increasing risk of frontal collision.

## FRONT DEPARTURE ALERT

When there is a stationary vehicle in front of you, you will be alerted with a buzzer if the vehicle in front moves ahead.

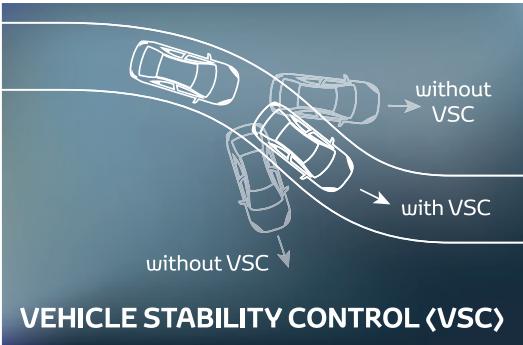

## PEDAL MISOPERATION CONTROL

Suppresses engine output when the driver accidentally stomps the accelerator pedal. It reduces collision damage from the obstacles ahead due to sudden acceleration.

# A STEP AHEAD

To keep you as safe as possible, the class-leading SAFE-T features of the all-new Rush are designed to support you during the unexpected and enhance confidence in your driving skills. For ultimate peace of mind, the all-new Rush has also been awarded a 5-star ASEAN NCAP rating in both Adult & Child Occupant categories.

# A TOUCH OF GENIUS

Designed to improve your driving experience, smart CONNECTIVI-T features allow you to feel at home in the all-new Rush.
